What [ ] is concerned about is whether O/PERS has a high priority with ODP and whether it has sufficient money to buy the word processing gear it needs. PERSIGNS (sp?) is a separate issue, but he wants to be sure that Glerum is getting the support the DD's want him to have to make OP an efficient operation.

I will talk with DCI admin about the word processing problem. Defer to you whether ODP is responding to OP's data processing needs.
